

Procedure for land plot cadastral registration

National cadaster is a code of findings on items of property, in particular, type of right, type of permitted use, etc.

Cadastral registration in the Russian Federation shall be regulated by the Federal Law dated 24.07.2007 No. 221-FZ "On state cadaster of property"

Procedure for land plot national cadastral registration:

1. The applicant shall submit the Application on land plot cadastral registration to the Cadastral Federal Council or through Multifunctional Center of Public Service Provision with the following documents:

- ✓ Document identifying the applicant's personality;
- ✓ Land plot delimitation plan (Execution of land plot delimitation plan shall be made by qualified cadastral engineer)

The application on registration may be submitted by the owner or any other person with notarized power of attorney. Application form can be downloaded from the site of the Federal Service for State Registration, Cadaster and Cartography, received at the office of the Cadastral Federal Council or Multifunctional Center of Public Service Provision.

2. After consideration of the application on registration, the land plot cadastral certificate shall be issued.
